

# Wisconsin Association

of Osteopathic Physicians & Surgeons

Great news! DILLON'S LAW HR 3910 is on its way to become a national Law!! We are gathering bipartisan support and more interest every week! This law will help make epinephrine more available to the public across the country.

Endorsements from the leading allergy experts in the world including AAAAI, AAFA, and FARE have been obtained!!!

The AOA, ACOFP, ACOP, and SOMA are all officially offering their support and other organizations are jumping on board!

Now is the time we need your help to encourage individual congressmen and congresswomen to cosponsor Dillon's Law HR 3910.

Please call these four WI Congressmen:

1. **Congressman Pocan** - His staff may be reached at 608 258 9800(Madison) or 202 225 2906 DC 2.
2. **Congressman Gallagher** - His staff may be reached at 920 301 4500(Green Bay) or 202 225 5665 DC 3.
3. **Congressman Tiffany** - His staff may be reached at 715 298 9344(Wausau) or 202 225 3365 DC 4.
4. **Congressman Fitzgerald** - His staff may be reached at 262 784 1111(Oconomowoc) or 202 225 5101 DC You can call both offices and also email them if you have time!

When you call, just tell the staff you are a WI physician and would like them to support DILLON'S LAW HR 3910. This law will help make epinephrine more available to the public. It will help save the 500 - 1000 lives lost each year because of severe allergic reactions. (They may ask for your name and address. If you live in their district they will listen very closely to you!!)

Thank you!

The WAOPS Advocacy Committee
